Volume contents

Vol. 13, Nos. 1–4

The Thymus. Histophysiology and Dynamics in the Immune System
Guest Editors: Jan Rozing and Henk-Jan Schuurman

Editorial
J. Rozing & H.-J. Schuurman 1

The developmental stages of the human T cell receptors: A review
D. Campana 3

Learning by the immune system studied in T-cell receptor transgenic mice
H. von Boehmer 19

Tolerance to Mls^a by clonal deletion of $V\beta6^+$ T cells in bone marrow and thymus chimeras
D.E. Speiser, E. Kolb, R. Schneider, H. Pircher, H. Heingartner, H. Robson MacDonald & R.M. Zinkernagel 27

Fate of potentially self-reactive T cells in neonatal mice: Analysis of $V\beta6^+$ T cells in Mls^a mice
R. Schneider, R. Lees, T. Pedrazzini, B. Odermatt, D.E. Speiser, R.M. Zinkernagel, H. Heingartner & H. Robson MacDonald 35

Autoreactivity of hybrids putatively derived from immature $CD4^+CD8^+V\beta6^+$ thymocytes from an Mls^a mouse
Y. Chvatchko & H. Robson MacDonald 45

Thymic epithelial cultures 30 years ago, and their interpretation
R. Klein 53

Analysis of the development of T cells by transferring precursors into cultured fetal thymus with a microinjector
Y. Watanabe, J.-I. Gyotoku & Y. Katsura 57

Modulation of T-cell differentiation in murine fetal thymus organ cultures
G.A. Waanders, D.I. Godfrey & R.L. Boyd 73

Influence of antibodies neutralizing cytokines on murine fetal thymic organ cultures
J. Plum, M. de Smedt, B. Tison & G. Leclercq 83

Analysis of the cytotoxic function of the thymocytes generated in a 14-day old mouse fetal thymus organ culture with high dose of IL-2
G. Leclercq, M. de Smedt, B. Tison & J. Plum 95

The T-cell receptor repertoire is strikingly similar in older nude mice compared to normal adult mice
D.A. Ferrick, S.R. Sambhara, B.S. Chadwick, R.G. Miller & T.W. Mak 103

Induction of immunological tolerance by chimeric thymus transplantation
V. Palathumpat, M. VandePutte & M. Waer 113

Implantation of cultured thymic fragments in athymic nude rats: Studies in tolerance towards donor haplotype
H.-J. Schuurman, J. Rozing, R. Broekhuizen, F. Tielen & P. van de Bergh 123

Editorial
J. Rozing & H.-J. Schuurman 129

Neuroendocrine-immune interactions in T cell ontogeny
V. Geenen, F. Robert, M. Fatemi, H. Martens, M.-P. Defresne, J. Boniver, J.J. Legros & P. Franchimont 131

Traffic of mature lymphocytes into the mouse thymus
S.A. Michie & R.V. Rouse 141

What is the function of peripheral lymphocytes migrating to the thymus and B lymphocytes proliferating in the thymus?
R. Pabst, R.M. Binns & J. Westermann 149

The morphology of perivascular spaces in the thymus
M.D. Kendall 157

Thymic epithelial antibodies: Immunohistological analysis and introduction of nomenclature. *Summary of the Epithelium Workshop held at the 2nd Workshop 'The Thymus. Histophysiology and Dynamics in the Immune System'*
J. Kampinga, S. Berges, R.L. Boyd, P. Brekelmans, M. Čolić, W. van Ewijk, M.D. Kendall, H. Ladyman, P. Nieuwenhuis, M.A. Ritter, H.-J. Schuurman & A. Tournefier 165

Immunohistochemical identification of six cytokeratin-defined subsets of the rat thymic epithelial cells
M. Čolić, S. Jovanović, S. Mitrović & A. Dujić 175

Analysis of the fine distribution of thymic epithelial microenvironmental molecules by immuno-electron microscopy
B. von Gaudecker, M. Larché, H.-J. Schuurman & M.A. Ritter 187

Differentiation of epithelial stroma during ontogenesis of the thymus in mice: A speculation on the origin of the thymus as a sensory organ
K.U. Hartmann, S. von Eckhardtsein & E. Darwin 195

Control of lymphoepithelial interactions within thymic nurse cells by gamma-interferon and tumor necrosis factor alpha. *Possible role in the modulation of intrathymic education?*
M.-P. Defresne, Ch. Humblet, A.-M. Rongy & J. Boniver 201

Turnover of ED2-expressing macrophages in the thymus cortex of rats
J. Kampinga & R. Aspinall 205

Are $CD4^+$ cells responsible for protection against salmonellosis? Remarks from studies on athymic and thymus-grafted rats
H.P. Hougen, B. Klausen & E. Tvenstrup Jensen 213

Establishment and characterization of mouse thymic epithelial cell lines
P. Naquet, H. Lepesant A. Luxembourg, P. Brekelmans, C. Devaux & M. Pierres 217

Influence of a thymic hormone on cultured epithelial cells of the thymus
M. Small, N. Trainin & M. Aronson 227

Binding of cortical thymocytes to a medullary epithelial cell line: A brief review
E.F. Potworowski, P. Hugo & C. Couture 237

A novel lymphocyte surface antigen recognized by the monoclonal antibody HIS45
R. Aspinall & J. Kampinga 245
